

Experience the Best

ISUZU
GENUINE PARTS

OVERVIEW

All replacement parts used are genuine ISUZU parts or are made to original equipment manufacturer (OEM) standards. This means they are manufactured to the same high standards as the parts we use on our manufacturing line and are subjected to the same performance, quality and durability tests.

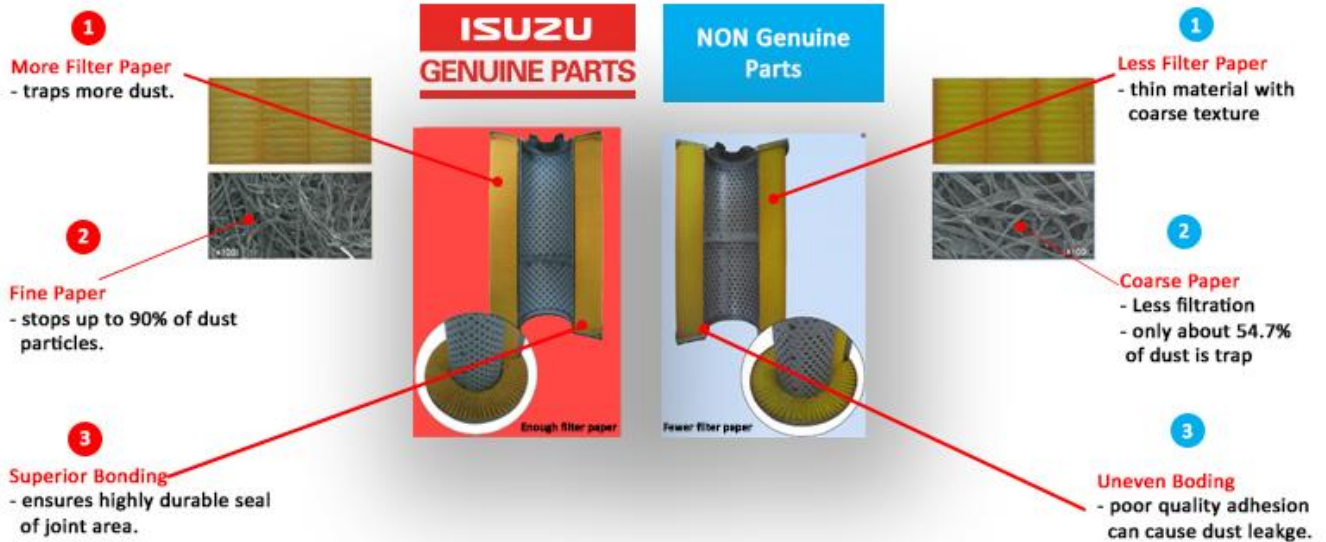

Beware of "aftermarket parts" that claim to be genuine ISUZU parts. They are not genuine and do not meet the strict quality and standards specification of ISUZU parts.

We recommend only using genuine ISUZU parts, because the quality of a single component, no matter how small, has an impact on the overall performance of your vehicle. Using non-genuine parts may affect the performance of your engine or your vehicle in general.

COMPARISON OF GENUINE PARTS AND NON-GENUINE (AFTERMARKET) PARTS.

Three Point Check

Amount of dust flowing to engine side at 25g/h contaminant input

ISUZU GENUINE OIL

ISUZU genuine oil BESCO 15W-40 is developed with high precision to specifically meet ISUZU engine requirements for superior engine performance. This super high-performance diesel engine oil is suitable for use in modern low emission, turbocharged and naturally aspirated diesel engines. The product is blended from selected high-refined base stocks and advanced additives to provide utmost engine protection and extended oil drain intervals. Suitable for engines conforming to Euro 3 and Euro 2 emission norms and also meets the stringent requirement of other major global engine manufacturers. Highly recommended for ISUZU vehicles.

PACK SIZE – 5L, 20L, 208L
